Subject: Execution of Upper-Krishna Project - Formation of one Circle, Divisions and Sub Divisions.

Reference: Government Order No. PWD 38 IRI 58 dated 3/12-1-1962.

2. Correspondence ending with D.O. letter No. 1820 EST dated 27th June 1962 from the Chief Engineer, Irrigation Projects, Munirabad.

Preamble:- In Government Order dated 3/12-1-1962 administrative sanction was accorded for carrying out the preliminary works connected with the Upper Krishna Project at an estimated cost of Rs. 50.00 lakhs. These works consist of jungle clearance, construction of Office buildings, residential quarters, approach roads and procurement of tools, plants and machinery etc., The Upper Krishna Project is a gigantic Project envisaging the construction of two dams - one at Almatti and the other at Narayanapur and two Channels to serve the irrigable area. In its first stage the project is expected to bring under irrigation an extent of 5.33 lakhs acres in Bijapur and Belgaum Districts.

The Chief Engineer (Irrigation Projects) has reported that a grant of Rs. 50.00 lakhs is to be worked out during this year on preliminaries, that it is necessary to carryout all these preliminaries including the final surveys, preparation of drawings, designs and estimates expeditiously and have them ready in advance so that immediately on receipt of technical clearance, the main project work estimated to cost Rs. 475.00 lakhs could be tackled and that for a project of this magnitude it is necessary to have exclusively an independent Circle with two Divisions to start with as a nucleus of the future organisation.

He has accordingly recommended sanction of Governm to the creation of one Investigation Circle, two Divisi and eight Sub Divisions in addition to the existing Upp Krishna and Bhimha Survey Division at Bagalkot, for a p of two years in the first instance.

The Upper Krishna Project Investigation Circle is proposed to be located at Yermarus for the time being wh Office accommodation and residential quarters are readil available as a result of the abolition of the Tungabhadr Canal Construction Circle Office, recently.

The additional expenditure involved in this behalf is proposed to be met from the provision under "M.H. 99 Capital Outlay on I.N.E.& D works (Commercial ) - A Irri tion Works - Un-productive - (a) Works - III Schemes in III Five Year Plan - A. To,

The Secretary to Government,
Public Works Department,
"Vidhana Soudha", BANGALORE.

Subject: Additional staff to the Upper Krishna Bhima Survey Investigation Divn., Bagalkot and U.K.P.I Division, Lingsugur Camp Yermarus.

Reference:Government letter No.PWD 65 SCO 62 dt 12.3.1963

Sir,

In accordance with Government Order No.PWD 77 SCO 62 dated 24-9-62, the Upper Krishna Project Investigation Circle, started functioning with its headquarters at Yermarus, with tw Divisions thereunder one at Bagalkot and the other at Yermarus Approval of Government has been requested for in this office letter No.7360/ES I dt. 29-1-1963 for locating the headquarter of the new Division at Yermarus in view of administrative convenience. In view of taking up of Preliminary works connected with the Upper Krishna Project, machinery and Stores worth sev lakhs of rupees have to be handled by both the Divisions. Nec ssary accounts and store transactions have to be maintained in systematic manner from the beginning as otherwise it will not possible to reconcile the descripancies at a later stage. To achieve this object the services of requisite accounts staff a storekeepers have to be made available to both the Divisions t push through the works entrusted smoothly. The policy of Gov is not to create any additional posts under emergency conditic involving extra financi-l burden and as the services of the ac staff and store keeper are absolutely necessary for the two existing Divisions of Upper Krishna Project Investigation Circ it is proposed to effect reduction of one post of Supervisor f all the seven Sub-Divisions (i.e. 3 Sub-Divisions under Upper Krishna Bhima Survey Investigation Divn., Bagalkot) ~~and 4 Sub-D sions under Upper Krishna Survey Investigation Divisions Bag~~ and 4 Sub-Divisions under Upper Krishna Project Investigation Division Lingsugur Camp Yermarus) and in lieu there of necessa

accounts staff and storekeeper have been proposed under each of the two Divisions as per details shown in the enclosed proposition Statements. One post of Stenographer has also been proposed to the Upper Krishna Bhima Survey Investigation Divn., Bagalkot. This proposal envisages a savings of Rs.24/- per annum. Similarly one post of II Dn. A/cs Clerk has been proposed to each of the three Sub-Divisions under Upper Krishna Bhima Survey Investigation Divn., Bagalkot in place of one of the II Division P.W.D. Clerk under them. This proposal does not involve any extra financial burden but merely requiries adjustment. Necessary Proposition statement is enclosed for reference.

I, therefore, request that sanction of Government may kindly be communicated for the reduction of seven posts of Supervisors from the seven Sub-Divisions (one post from each Sub-Division) under the existing Divisions, and for the entertainment of additional staff both the Divisions as per details furnished at the earliest, so as to be coterminus with the sanction to be accorded for the continuance of the two Divisions and seven Sub-Divisions of the Upper Krishna Project. Want of accounts staff and Store Keepers the Divisions are experiencing much difficulty in the proper up/keep of accounts in the initial stage and the accounts would be stated to be accumulating in arrears. The cost of establishment will be met as hither to.

Early orders of Government are solicited.

Adverting to the above, I have to state that G.O. dated. 6-3-1964, is specific in its interpetation viz. that the sanctio accorded for the creation of additional Accounts Staff is for the period co-terminus with that of the Upper Krishna Project Investigation Circle and that the creation contemplated is subject to the condition that the staff shown therein should be surrendered. This means that the date of surrender will have to be the date of creation and not from the date of the G.O. as assumed by Accountant General. Accounts Superintendent, one First Grade Accounts Clerk and 2 Second Grade Accounts Clerk in the Upper Bhima Krishna ~~Project~~ Survey Division. The same may be approved. I am rather apprehensive as to whether these posts will really be filled up. There is considerable dearth of vacancies in the Accts branch in the integrated areas. I am only apprehensige that these vacancies even if sanctioned will remain unfilled. In view of the fact that Accounts in the Survey Division is also to be properly maintained I suggest the entertainment of accounts staff. However I feel that the Accounts Superintendent as requested by the Chief Engineer, Irrigation Projects seems to be not necessary. One first grade Accounts Clerk and two Second Grade Accounts clerks may be adequate.

For concurrence.

Subject: Upper Krishna & Bhima Projects Division -- Additional Accounts. Staff

The above named Division has hither to been functioning as an investigation Unit, and the existing sanctioned accounts staff of the Division comprises of the marginally noted estt.. Government have since ordered that the preliminary works of Upper Krishna Project have to be executed and a grant of Rs.50 lakhs has been allotted for this work during 1962-63. For implementing the above, action is already taken to shift the headquarters of the Division from Yermarus to Bagalkot so to be near the project site, and the Executive Engineer has been directed to go ahead with the execution of preliminary works. With the commencement of execution, it becomes necessary for the Division to check and pass work bills, prepare monthly schedules, and maintain a number of Registers as required by audit. As the existing accounts staff is absolutely inadequat and does not even provide for an Accounts Superintendent to be in charge of the Accounts Branch of the Division, comprehensiv proposals have been submitted to Government in this office No. 12932 Est dated 27.3.1962 for augmenting the staff of the Division. As it is very essential that the work accoun of the Division have to be maintained in a proper manner from the very commencement so as to avoid confusion and complicatio in future, it is considered necessary that the Division should have the services of an Accounts Superintendent and a few Accounts Clerks immediately. I therefore request that pending

issue of orders on the comprehensive proposals for additional staff, sanction of Government may kindly be communicated for the entertainment of 1 Accounts Superintendent, 1 I Grade Accounts Clerk and 2 II Grade Accounts Clerks in Upper Krishna & Bhima Survey Division.

Subject: Upper Krishna & Bhima Projects Survey Division, Yermarus.

Reference: G.O.No.PWD 9 MUK-61 dt. 22/25-1-1962.

In the Government Order referred to above sanction has been accorded to the continuance of the Upper Krishna & Bhim Projects Survey Division, Yermarus, with the existing scale establishment till the end of March 1963. Government have since ordered to take up the preliminary works of Upper Kris Project. Pending approval of Government the Superintending Engineer, Irrigation Investigation Circle, Dharwar, has been authorised to take action to shift the headquarters of the Division from Yermarus to Bagalkot in the interest of work a reported to Government in this office letter No.ESS/CTE/61-6 12324 dt. 3rd March 1962. The Upper Krishna & Bhima Project Survey Division, hitherto functioning as an Investigation Division has been entrusted with the execution of preliminar works of the project. With the taking up of preliminary wor the Division has to function as a full fledged execution unit and has to work out a grant of Rs.50 lakhs during 1962- and it is considered therefore, necessary to augument the st of the Division, suitably to ensure speedy execution. In vi of contemplated increase in the flow of correspondence both in technical and accounts matters, the Superintending Engine Irrigation Investigation Circle, Dharwar, has proposed certa additional staff for the existing Division and three Sub-Divisions thereunder also the constitution of two additional Sub-Divisions. Proposition Statements showing the details of establishment as existing and proposed are enclosed. The

The additional establishment as now proposed is the barest minimum and requires to be provided. I, therefore, request that sanction of Government may kindly be communicated to the additional establishment for the Upper Krishna & Bhima Projects survey Division and the three Sub-Divisions there under as now proposed as also for the creation of two additional Sub-Division and to incur an expenditure of Rs.64,000/- towards non-recurring charges as per details furnished. The cost in question will be met under M.H. 68 I.N.E & D as hitherto A provision of Rs.50 lakhs has been made in the Budget for 1962-63 for the project.

Early orders of Government are requested.

Yours faithfully,

Chief Engineer,
Irrigation Projects.

Note on the additional staff required for the existing upp r Krishna and Bhima Survey and Investigation Division, Yermarus and for proposed 2 new Sub-Divisions thereunder fo· the execution of the Upper Krishna Project work.

---

The preliminary worksn of the Upper Krishna Project have been ordered to be takem up immediately and an amount of Rs. 5,05 lakhs is proposed to be spent before March 1962, out of the totally administrative amount of Rs. 50 lakhs. As the preliminary works are required to be carriedout by the existing Upper Krishna and Bhima Survey Investigat'on Divis'on which is meant for the Survey and Investigation works of Upper Krishna and Bhima Survey Investigation Divis'on, it is necessary to supplement the existing staff of the office of the Executive Engineer and the existing three Sub-Divisions, thereunder, and also to create two new Sub-Divisions, ( one Mechanical Sub-Division and One Civil Sub-Division in the first instance).

The present staff sanctioned for Upper Krishna and Bhima Sur-vey Investigation Division is meant for a Division, requiring to do only survey works. This Divisi is also now required to take up the preliminary works of Upper Krishna Project as instructed in your letter No. ESI/10793 dt. 16-1-1962. It is not possible for the existing staff of the Executive Engineer's office and a of the existing 3 Sub-Divisions to cope up with the increase in correspondence, accounts work etc. as well execution of the preliminary works unless the staff is supplemented as proposed and additional 2 new Sub-Divns, are sanctioned.

required for the preliminary works and may kindly be got sanctioned from Government very early, so that the preliminary works can be speeded up.

Note on the additional staff required for the existing upper Krishna and Bhima Survey and Investigation Division, Yermarus and for proposed 2 new Sub Divisions thereunder for the execution of the Upper Krishna Project work.

---

The preliminary works of the Upper Krishna Project have been ordered to be taken up immediately and an amount of Rs. 5.06 lakhs is proposed to be spent before March 1962, out of the totally administrative amount of Rs. 50 lakhs. As the preliminary works are required to be carriedout by the existing Upper Krishna and Bhima Survey Investigation Division which is meant for the survey and Investigation works of Upper Krishna and Bhima Survey Investigation Division, it is necessary to supplement the existing staff of the office of the Executive Engineer and the existing three Sub Divisions, thereunder, and also to create two new Sub Divisions, ( one Mechanical Sub-Division and One Civil Sub-Division in the first instance).

The present staff sanctioned for Upper Krishna Bhima Survey Investigation Division is meant for a Survey Division, requiring to do only survey works. This Division is also now required to take up the preliminary works of Upper Krishna Project as instructed in your letter No. SMY/10708 dt. 16-1-1962. It is not possible for the existing staff of the Executive Engineer's office and of the existing 3 Sub-Divisions to cope up with the increase in correspondence, accounts work etc. as the execution of the preliminary works unless the staff is supplemented as proposed and additional 2 new Sub-Divisions are sanctioned.

The additional staff proposed is the minimum required for the preliminary works and may kindly be got sanctioned from Government very early, so that the preliminary works can be speeded up.

Note on the additional staff required for the existing upper Krishna and Bhima Survey and Investigation Division, Yermarus and for proposed 2 new Sub-Divisions thereunder for the execution of the Upper Krishna Project work.

---

The preliminary worksn of the Upper Krishna Project have been ordered to be taken up immediately and an amount of Rs. 5,05 lakhs is proposed to be spent before March 1962, out of the totally administrative amount of Rs. 50 lakhs. As the preliminary works are required to be carriedout by the existing Upper Krishna and Bhima Survey Investigation Division which is meant for the Survey and Investigation works of Upper Krishna and Bhima Survey Investigation Division, it is necessary to supplement the existing staff of the office of the Executive Engineer and the existing three Sub-Divisions, thereunder, and also to create two new Sub-Divisions, ( one Mechanical Sub-Division and One Civil Sub-Division in the first instance).

The present staff sanctioned for Upper Krishna and Bhima Sur-vey Investigation Division is meant for a Division, requiring to do only survey works. This Division is also now required to take up the preliminary works of Upper Krishna Project as instructed in your letter No. EST/10793 dt. 16-1-1962. It is not possible for the existing staff of the Executive Engineer's office and also of the existing 3 Sub-Divisions to cope up with the increase in correspondence, accounts work etc. as well as execution of the preliminary works unless the staff is supplemented as proposed and additional 2 new Sub-Dnss, are sanctioned.

The additional ....

- The additional staff proposed is the minimum required for the preliminary works and may kindly be got sanctioned from Government very early, so that the preliminary works can be speeded up.

....

1) The alternative proposals of constructing a singl dam at a suitable site, at the first instance, itself, for irrigating the whole ayacut of 12 lakh acres as reported tc have been contemplated by the Ex-Hyderabad Government and as discussed with the Superintending Engineer, Upper Krishi Project Investigation Circle, may be examined in detail.

2) Improvements to the Hunsgi Kodekal road includin asphalting, if feasible, and construction of Narayanpur Kodekal road should be taken up immediately.

3) The preliminary works of constructing colony buildings and approach roads should be expedited and the current year's budget provision of Rs. 20 lakhs for Upper Krishna Project should be fully spent.

4) Accommodation facilities for the project staff working on site should be provided by putting up tents etc Recently a large No. of tents have been procurred by Govt. and Chief Engineer, Communications and Buildings may be addressed to spare some tents for the Upper Krishna Projec

5) It is seen that Narayanpur Dam is designed with long earthen flanks on both banks. The left bank is all rocky and good earth does not appear to be available withi economic leads. Good rocks are available for constructing masonry flanks. This aspect may be carefully examined bef finalising details and taking up the work.

6) It is learnt that there is no post of Accounts Superintendent in the Upper Krishna Project & Bhima Survey and Investigation Division, Bagalkot. The Chief Engineer, Irrigation Projects has recommended to Government for sanction of additional accounts staff to the Upper Krishi Project Division, Bagalkot. As preliminary works are already in progress the post of Accounts Superintendent for the Division is quite necessary.
